Deb,

Hope you will have a relaxing 4th.

When you get back and look into the police car thing, I hope you will also ask them about their three lobbyists. I was told all three are still in this current year's budget. Unbelievable if true.

I know you could only recommend the elimination of the lobbyists when you passed their budget, but the public will not understand three lobbyists while the city has one of their own. Plus I would imagine these three lobbyists have expense accounts. That is two police officers.

Steve
